### 1. About NovaTech Solutions

NovaTech Solutions Pvt. Ltd. is a fictional technology company used for AI engineering and RAG testing. The company develops enterprise software, data platforms, automation systems, and AI-enabled business applications. Its main operating principles are customer focus, security, accountability, continuous learning, and responsible use of technology.

### 2. Working Hours

The standard working schedule is Monday through Friday, 9:00 AM to 6:00 PM local time, with a one-hour lunch break. Employees are expected to be available during core hours from 10:00 AM to 4:00 PM. Teams supporting customers in other time zones may have different schedules approved by their department manager.

### 3. Annual Leave

Full-time employees receive 24 days of annual leave per calendar year. Employees joining during the year receive a prorated entitlement based on their joining date. Annual leave should normally be requested at least 3 working days before the intended start date. Leave approval depends on manager approval and operational requirements.

### 4. Leave Carry Forward

Employees may carry forward up to 5 unused annual leave days into the following calendar year. Any carried-forward days must normally be used by 31 March of the following year unless an exception is approved by People Operations. Unused days above the permitted carry-forward limit normally expire at the end of the calendar year.

### 5. Sick Leave

Employees receive 10 days of sick leave per calendar year. Employees should inform their manager as soon as reasonably possible when they are unable to work because of illness. A medical certificate may be requested for extended absences or repeated sick leave. Sick leave cannot normally be converted into annual leave or paid out as cash.

## **6. Emergency Leave**

Employees may request emergency leave for unexpected personal or family situations. Emergency leave requests should be communicated to the manager as soon as possible. The manager may request supporting information when appropriate. Approval is based on the circumstances and applicable company rules.

## **7. Work From Home**

Eligible employees may request work from home when their role permits remote work. A standard work-from-home request should normally be submitted at least 1 working day in advance. Manager approval is required. Employees working remotely must remain reachable during core hours, attend required meetings, protect company information, and maintain an appropriate working environment.

## **8. Remote Work Limits**

Employees should not assume that working from home is an automatic entitlement. Customer-facing roles, operational support roles, security-sensitive positions, and roles requiring physical equipment may have additional restrictions. Managers may require an employee to work from the office when business needs require it.

## **9. Attendance and Punctuality**

Employees are expected to follow their assigned schedule and arrive on time. Employees who expect to be late should notify their manager as early as possible. Repeated unexplained lateness, absence, or failure to follow attendance procedures may result in corrective action. Attendance records are maintained by the company.

## **10. Overtime**

Overtime should be approved by the employee's manager before the additional work is performed, except in genuine emergencies. Employees must accurately record approved overtime according to their team's process. Working additional hours without required approval does not automatically create an entitlement to overtime compensation.

## **11. Probation**

New employees normally complete a 6-month probation period. During probation, performance, attendance, conduct, role fit, and completion of assigned responsibilities are reviewed. The company may extend probation when additional assessment time is required, subject to applicable employment rules and company procedures.

## **12. Performance Reviews**

Employees normally receive a formal performance review twice per year. Reviews consider role responsibilities, measurable objectives, quality of work, collaboration, communication, reliability, and professional development. Managers may conduct additional reviews when performance or role changes require them.

## **13. Promotion**

Promotion decisions are based on demonstrated performance, role readiness, business requirements, sustained contribution, relevant skills, and availability of an appropriate role. Completing a particular training course does not automatically guarantee promotion.

## **14. Learning and Development**

Employees may request training related to their current role or an agreed career-development plan. Training requests should normally be discussed with the manager before registration. The company may reimburse approved external

training when the request meets the learning budget and business criteria.

## **15. Expense Reimbursement**

Business expenses must be reasonable, necessary, and related to approved company activities. Employees should submit expense claims within 30 calendar days of the expense unless a department-specific process states otherwise. Receipts or equivalent supporting documentation are required for reimbursable expenses. Personal expenses are not reimbursable.

## **16. Business Travel**

Business travel requires manager approval before booking. Employees should use approved travel channels where available. Reasonable transportation, accommodation, and business-related meal expenses may be reimbursed when supported by receipts and within applicable travel limits. Personal upgrades and personal travel extensions are normally not reimbursed.

## **17. Information Security**

Employees must protect company information, customer information, credentials, source code, and internal documents. Passwords must not be shared. Sensitive information should only be stored in approved systems. Employees must report suspected security incidents, lost devices, accidental data exposure, or suspicious access as soon as possible to the designated security contact.

## **18. Acceptable Use of AI**

Employees may use approved AI tools for productivity, drafting, coding assistance, summarization, and other authorized business purposes. Confidential company information, customer data, credentials, personal employee information, and proprietary source code must not be entered into unapproved external AI services. Employees remain responsible for reviewing AI-generated content before using it in business decisions or customer communications.

## **19. Code and Software Security**

Developers must follow the company's approved source-control, code-review, dependency-management, and secret-management practices. API keys, passwords, tokens, and private credentials must not be committed to source control. Security-sensitive changes should receive appropriate peer review before deployment.

## **20. Employee Data Privacy**

Employee personal information should be accessed only for legitimate business purposes. Managers and employees must not share personal employee records with unauthorized individuals. Reports containing sensitive employee information should be stored only in approved systems with appropriate access controls.

## **21. Conflicts of Interest**

Employees should disclose situations that could create an actual or perceived conflict between personal interests and company responsibilities. Employees must not use company resources, confidential information, or business opportunities for unauthorized personal benefit.

## **22. Gifts and Hospitality**

Employees must avoid accepting gifts or hospitality that could improperly influence a business decision. Low-value customary business gifts may be acceptable when permitted by company rules. Cash or cash-equivalent gifts from

vendors, customers, or partners must not be accepted without explicit authorization.

## **23. Workplace Conduct**

NovaTech expects employees to communicate respectfully and behave professionally. Harassment, discrimination, threats, intimidation, retaliation, and abusive conduct are not acceptable. Concerns should be raised through a manager, People Operations, or another approved reporting channel.

## **24. Resignation and Notice**

Employees who resign should submit a written resignation through the company's designated process. The applicable notice period is determined by the employment agreement and applicable law. Employees are expected to support an orderly handover of responsibilities, company property, access, documentation, and ongoing work.

## **25. Exit Process**

Before departure, employees must return company property, complete required handover activities, transfer relevant work and documentation, and follow account and access closure procedures. Final administrative processing is handled by the relevant People Operations and Finance teams.

## **26. Frequently Asked Policy Questions**

Annual leave entitlement: 24 days per calendar year for full-time employees, subject to prorating where applicable. Annual leave carry-forward: up to 5 unused days, normally usable by 31 March. Sick leave: 10 days per calendar year. Standard working schedule: Monday to Friday, 9:00 AM to 6:00 PM, with core hours from 10:00 AM to 4:00 PM. Standard work-from-home requests: normally submitted at least 1 working day in advance and require manager approval. Standard probation: 6 months. Standard performance reviews: twice per year.

# RAG Evaluation Questions

1. How many annual leave days does a full-time employee receive?
2. How many annual leave days can be carried forward?
3. When should carried-forward leave normally be used?
4. How many sick leave days are provided?
5. How much notice is normally required for work from home?
6. What are the company's core working hours?
7. How long is the standard probation period?
8. How often are formal performance reviews conducted?
9. Can employees put company secrets into any external AI tool?
10. What should an employee do after losing a company laptop?
11. Are personal expenses reimbursed?
12. Does completing a training course automatically guarantee promotion?
13. What is the standard resignation notice period?
14. What is the company's policy on gifts from vendors?
15. What happens if an employee repeatedly arrives late?
16. What is the policy for API keys and passwords in source control?
17. Can an employee work from home whenever they want?
18. What information must employees protect?
19. Does the policy mention a specific maximum amount for business meals?
20. What is the company's policy on pets in the office?
